HYBRID WORK POLICY

Where and when we work

A predictable hybrid schedule balances focused work with team collaboration. This policy applies to permanent employees whose roles can be performed securely away from the office.

01 / Weekly arrangement

Remote work is allowed up to 3 days per week with line-manager approval. Tuesday and Thursday are the default office collaboration days. Each team publishes its next week's schedule by Friday at 16:00 IST. Client visits and agreed field work count as work duties, not annual leave. This arrangement does not create an entitlement to work from any country.

02 / Eligibility and core hours

The manager checks role suitability, service coverage and security training before approving a hybrid arrangement. During working days, employees should be reachable from 11:00 to 16:00 IST, excluding lunch and approved absences. Teams agree their remaining hours. Core availability is not a requirement to work during recorded leave.

03 / Attendance exceptions

An exception to a Tuesday or Thursday office day requires manager approval before the day concerned. A recurring exception lasting more than 4 weeks also requires People Operations review. The exception record must state the reason, review date and service-coverage plan. A temporary exception does not change the general policy.

Approved by the People Director on 15 December 2025. Read alongside AV-HR-001 and AV-SEC-001.

HYBRID WORK POLICY

Workspace and reimbursement

Home-working costs must follow the same approval and receipt controls as other business expenses. An equipment allowance is a cap, not permission to purchase any item.

04 / Equipment allowance

The annual home-office equipment allowance is INR 5000 per employee per calendar year, including tax. Eligible items include an ergonomic keyboard, mouse, headset or monitor accessory. Obtain manager approval before buying and submit the itemized receipt within 15 calendar days of purchase under AV-FIN-001. Unused allowance does not carry into the next year.

05 / Purchase example

A headset costing INR 3500 plus INR 630 tax totals INR 4130. If no other equipment reimbursement has been claimed that year, INR 870 of the allowance remains. A personal mobile subscription is not automatically eligible. Finance decides ambiguous categories before purchase; the employee should not assume reimbursement.

06 / Safe access

Use a company-managed device, multifactor authentication and the approved VPN when accessing internal systems remotely. Do not use shared family accounts or public computers. Restricted information must not be saved to a personal drive. AV-SEC-001 defines classification and the security incident procedure.

Control	Requirement	Approver
Equipment	INR 5000 / calendar year, tax included	Line manager
Receipt	Submit within 15 calendar days	Finance
Restricted data	Managed device and approved systems	Security team

HYBRID WORK POLICY

Continuity and review

Hybrid arrangements are reviewed against delivery and access needs. Reviews should rely on agreed outcomes and service coverage rather than assumptions about location.

07 / Connectivity interruption

If an outage prevents work, notify the line manager within 30 minutes where communication is available. Agree a safe alternative, such as moving to the office or rescheduling tasks. An outage does not automatically become annual leave. If the outage may involve a compromised device or account, use the security incident procedure instead.

08 / Temporary location changes

Working outside the employee's assigned country requires written People Operations and Security review before travel. The review considers contractual, access and client restrictions. This policy does not grant international remote-work approval or specify tax treatment. Employees must wait for the written outcome.

09 / Review and records

Managers review a hybrid arrangement every quarter and record any change in the People portal. A temporary withdrawal should include a reason and a review date. People Operations handles disagreements. The approved arrangement remains subject to customer commitments, information security controls and documented role requirements.

For annual leave, see AV-HR-001. For receipts and payment targets, see AV-FIN-001. For suspected compromise, see AV-SEC-001.
